High School: IIS Enzo Ferrari
Completed in 2020

PROFILE

I'm a Software developer "Web and Mobile" and I love what I do, I have a steady source of motivation that drives me to do my best. In my last job, this passion led me to challenge myself daily and learn new skills that helped me to do better work for the company. Take a look at my [Portfolio online](#)

WORK EXPERIENCE

Apprendo S.r.l "Freelance 2 months"

02/2023 - 04/2023

At Apprendo S.r.l I managed a mobile application called "ShoWe" using **Dart** programming language and the **Flutter** framework. This application was made so that people could create and participate in events generated by other users. Examples of "Gaming events", "Music Events", "Study Events" etc...

Alten

05/2022 - 01/2023

At Alten I learned how to work in a team managing the internal site (Alten.com) and updating a real site with some custom components using **Vue.js**, **JavaScript**, **HTML**, and **Scss**.

I understand how to work in a team on-site and remotely using **Git**, **GitHub**, and **GitLab**.

I also learned how to build a mobile application for the client for IOS and Android using **Dart** programming language and the **Flutter** framework.

Boolean Careers

10/2021 - 04/2022

I completed a 700-hour full-time course aimed at acquiring front-end technical skills (**HTML**, **CSS**, **JavaScript** and related frameworks as **Bootstrap** and **Vue.js**) and also acquiring back-end technical skills (**SQL**, **MySQL**, **PHP** and **Laravel**) During my training, I had the opportunity to create projects both independently and in groups. Some of the projects I created are replicas of real world system such as Netflix, WhatsApp, Spotify, DeliveRoo, and many others. You can find the source code of those projects on my GitHub profile and give me feedback.
